

$$a_r^r = a_f$$

$$a_f = q$$

$$a_r = 1$$

$$a_1 = \frac{1}{r}$$

$$a_r^r = rV \rightarrow a_r = r$$

$$a_1 \quad a_r \quad r \quad q \quad rV$$

$$a_1 = \frac{1}{r}$$

$$\frac{1}{r} - \frac{1}{r} = \frac{r-r}{q} = \frac{1}{q}$$
