الف) $120 \rightarrow \frac{\sqrt{3}}{2}$ $\left(\frac{40}{2}\right)$

ب) $\left(\frac{150}{2}\right)$

ج) $\sin \rightarrow \frac{\sqrt{3}}{2} \rightarrow 120, 110, 100, 90, 80, 70, 60, 50, 40, 30, 20, 10$

د) $120 \rightarrow \frac{\sqrt{3}}{2} \rightarrow 120, 110, 100, 90, 80, 70, 60, 50, 40, 30, 20, 10$

تقریبی سینوس $\frac{120}{13}$ $\left(\frac{1}{13}\right)$ $\rightarrow \frac{1}{13}$

$\frac{115}{4}$ $\rightarrow 115 - 180 = -65$

سینوس $\frac{115}{4}$ $\rightarrow 115 - 180 = -65$

الف) $\frac{120}{13}$ $\rightarrow 120 - 180 = -60$

$\frac{\sqrt{3}}{2} \times \frac{\sqrt{3}}{2} = -1$

$120 - 40$

ب) $\frac{120}{13}$ $\rightarrow 120 - 180 = -60$

$100 - 180 = -80$

$+\frac{1}{2} \sin$
